

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

LAMP DEPARTMENT.

The whole cost of lighting the streets of the city during the financial year 1892-93 was \$582,113.83. On the 15th of January the city was lighted with 1,547 electric, 8,743 gas, and 2,846 naphtha lamps, being an increase of 100 electric, a decrease of 181 gas, an increase of 2,766 naphtha lamps, and a decrease of 2,781 oil lamps, as compared with the previous year.

The lamps are located as follows :

	Gas Lamps.	Large Gas Lamps.	Electric Lights.	Naphtha Lamps.	Total.

Totals	8,731	12	1,547	2,846	13,136

The prices paid for gas in the public lamps to the several gas companies are: Boston at the rate of \$1.00 per thousand cubic feet; Roxbury, \$1.50; Charlestown, \$1.55; South Boston, \$1.50; East Boston, \$1.60; Dorchester, \$1.50; West Roxbury, \$1.85; and Brighton, \$1.85.

The price paid for electrics is 40 cents per light per night. The city provides the iron posts, and the companies furnish the lamps and light.

The men who clean and light the gas-lamps are paid at the rate of \$2.00 per day, and have an average of 70 lamps each.

The underground *service*-pipes are laid and kept in repair by the various companies, under the direction of the Superintendent of Lamps, and at the expense of the city, without pecuniary consideration or profit to the companies.

The naphtha lamps have been lighted since July under a contract by the Rising Sun Street Lighting Company, who furnish all material, light, and keep in repair for the sum of 5½ cents per light per night, or \$21.00 each per year.
